„PNRR: Fonduri pentru România modernă și reformată!”

This work was supported by a grant from the Romanian Ministry of Research, Innovation and Digitalization, the project with the title „Economics and Policy Options for Climate Change Risk and Global Environmental Governance” (CF 193/28.11.2022, Funding Contract no. 760078/23.05.2023), within Romania's National Recovery and Resilience Plan (PNRR) - Pillar III, Component C9, Investment I8 (PNRR/2022/C9/MCID/I8) - Development of a program to attract highly specialised human resources from abroad in research, development and innovation activities.

# AGENDA

1<sup>st</sup> Workshop

**Communication of Research Results in Different Environments**

**October the 16th, 2023**

**Time: 11.00 AM - 14.40 PM**

**Organized within the Project:** Economics and Policy Options for Climate Change Risk and Global Environmental Governance (ACRONYM: EPOC)

**Venue:** Dumitru Mares Amphitheater (ADM), Pestalozzi Street no. 16, Faculty of Economics and Business Administration, West University of Timișoara

## Event Scope

We cordially invite you to participate in our forthcoming workshop, which aims to enhance the appeal of a career in research. To share practical approaches to interdisciplinary research training, the workshop will consider the impact of the newly adopted normative framework in research field.

The workshop is designed to foster ideation and facilitate interactions among attendees sharing congruent interests. It promises an intensive dialogue centered around the normative and institutional framework that shapes research career development.

## Description

Within the purview of this workshop, our objective is to create a framework for dialogue and collaboration between young and advanced researchers, facilitating potential future large-scale collaborations that could increase the visibility and international impact of research results in the areas targeted by the project.

The workshop activities are designed to enhance doctoral and postdoctoral researchers' research and transferable skills to fulfil their potential as a researcher. The international scientific community pays attention to quantitative data that should measure the impact of research. Bibliometric methods have become quite fashionable for the evaluation of scientific research and for the assessment of individual researchers.

## Participants

Participants (Students, Master Students, PhD students or post-doctoral researchers) within the project “Economics and Policy Options for Climate Change Risk and Global Environmental Governance (ACRONYM: EPOC)” target group will benefit from this event. Other participants are also expected.

The workshop allows a maximum number of 150 participants. All workshop participants must register for the event in due time.

## Event Highlights

In-depth sessions on effectively communicating research results in diverse settings.

Discussions on establishing valuable connections within the research community.

Match-making activities to foster connections and collaborations.

Networking opportunities to expand and structure professional networks within the research community.

## General programme

The workshop is scheduled for the 16th of October 2023 and is structured to span 3.5 hours of scholarly engagement, commencing around 11:00 am and concluding by approximately 14:40 pm, with a mid-day coffee break.

### Monday, October the 16th

10:30 – 11:00	Registration
11:00 – 11:20	Welcome speech, Project presentation, Workshop presentation
11:20 – 13:20	<b>Presentation/Debates</b> <b>Mura Petru-Ovidiu – How to write a successful Bachelor/Master Thesis</b>
13:20 – 13:30	Coffee Break
13:30 – 14:30	<b>Presentation/Debates</b> <b>Su Chih Wei – How to write a paper to get published in a Web of Science journal-indexed?</b>
14:30 – 14:40	Closing ceremony
