

This work was supported by a grant from the Romanian Ministry of Research, Innovation and Digitalization, the project with the title „Economics and Policy Options for Climate Change Risk and Global Environmental Governance” (CF 193/28.11.2022, Funding Contract no. 760078/23.05.2023), within Romania's National Recovery and Resilience Plan (PNRR) - Pillar III, Component C9, Investment I8 (PNRR/2022/C9/MCID/I8) - Development of a program to attract highly specialised human resources from abroad in research, development and innovation activities.

# AGENDA

## 2<sup>nd</sup> Workshop

### Overview and guidelines for conducting bibliometric analysis

March the 7th, 2024

Time: 09.30 AM - 11.30 AM

**Organised within the Project:** Economics and Policy Options for Climate Change Risk and Global Environmental Governance (ACRONYM: EPOC)

**Venue:** Clinic of Preventive, Community Dentistry and Oral Health,  
University of Medicine and Pharmacy “Victor Babeș” Timișoara

[www.epoc-pnrr.uvt.ro](http://www.epoc-pnrr.uvt.ro)

## Event Scope

We cordially invite you to participate in our next workshop, which aims to provide new opportunities to study the state of knowledge in the field of science. The workshop will consider performance analysis and science mapping to unpack the prolific research constituents of a research field, which may include authors, institutions, countries and journals.

## Description

Within the purview of this workshop, our objective is to create a framework for dialogue and collaboration between young and advanced researchers, facilitating potential future large-scale collaborations that could increase the visibility and international impact of research results in the areas targeted by the project.

The workshop activities are designed to generate networking opportunities to expand and structure professional networks within the research community in order to enhance doctoral and postdoctoral researchers' research and transferable skills to fulfil their potential as researchers. The international scientific community pays attention to quantitative data that should measure the impact of research. Bibliometric methods have become quite fashionable for the evaluation of scientific research and for the assessment of individual researchers.

## Participants

Participants (Students, Master Students, PhD students and Post-doctoral researchers) within the project “Economics and Policy Options for Climate Change Risk and Global Environmental Governance (ACRONYM: EPOC)” target group will benefit from this event. Other participants are also expected.

The workshop allows a maximum number of 50 participants. All workshop participants must register for the event in due time.

## Event Highlights

Offers step-by-step guidance in the process of carrying out a rigorous bibliometric analysis with confidence. Provides information about the techniques and procedures available for conducting complex studies through bibliometric analysis.

Highlighting the evolutionary nuances of a certain field, including the highlighting of emerging areas in that field.

Allows the review of the state of knowledge of a domain, assisted by the computer.

„PNRR: Fonduri pentru România modernă și reformată!”

## General programme

The workshop is scheduled for the 7th of March 2024 and is structured to span 2 hours of scholarly engagement, commencing around 09:30 am and concluding by approximately 11:30 am.

### Thursday, March the 7th

<b>09:15 – 09:25</b>	Registration
<b>09:25 – 09:30</b>	Welcome speech, Project presentation, Workshop presentation
<b>09:30 – 11:30</b>	<b>Presentation/Debates</b> <b>Vătavu Sorana / Lobonț Oana-Ramona</b>
<b>11:30 – 11:45</b>	Closing ceremony
